1. Identification

   Product identifier

   Selontra®

   Relevant identified uses of the substance or mixture and uses advised against

   Relevant identified uses: rodenticide, Biocidal product

   Details of the supplier of the safety data sheet

   Company:
   BASF SE
   67056 Ludwigshafen
   GERMANY
   Operating Division Crop Protection

   Telephone: +49 621 60-27777
   E-mail address: Produktinformation-Pflanzenschutz@basf.com

   Emergency telephone number

   International emergency number:
   Telephone: +49 180 2273-112

2. Hazards Identification

   Classification of the substance or mixture

   According to UN GHS criteria

   No need for classification according to GHS criteria for this product.

   Label elements
Globally Harmonized System (GHS)

Precautionary Statement:
P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.
P103 Read label before use.

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards

According to UN GHS criteria

See section 12 - Results of PBT and vPvB assessment.

If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture. This product is hazardous to mammals, including domesticated animals, and birds. Exposure of non-target animals should be prevented.

3. Composition/Information on Ingredients

Substances

Not applicable

Mixtures

Chemical nature

Biocidal product, rodenticide, Bait

Hazardous ingredients (GHS)

According to UN GHS criteria

4. First-Aid Measures

**Description of first aid measures**

<table>
<thead>
<tr>
<th>Remove contaminated clothing.</th>
</tr>
</thead>
<tbody>
<tr>
<td>If inhaled:</td>
</tr>
<tr>
<td>Keep patient calm, remove to fresh air.</td>
</tr>
<tr>
<td>On skin contact:</td>
</tr>
<tr>
<td>Wash thoroughly with soap and water.</td>
</tr>
<tr>
<td>On contact with eyes:</td>
</tr>
<tr>
<td>Wash affected eyes for at least 15 minutes under running water with eyelids held open.</td>
</tr>
<tr>
<td>On ingestion:</td>
</tr>
<tr>
<td>Rinse mouth and then drink plenty of water.</td>
</tr>
</tbody>
</table>

**Most important symptoms and effects, both acute and delayed**

Symptoms: No significant reaction of the human body to the product known.

Hazards: Chronic overexposure has been reported to cause hypercalcemia.
5. Fire-Fighting Measures

**Extinguishing media**
Suitable extinguishing media:
water spray, foam, dry powder

Unsuitable extinguishing media for safety reasons:
carbon dioxide

**Special hazards arising from the substance or mixture**
carbon monoxide, Carbon dioxide, nitrogen oxides
The substances/groups of substances mentioned can be released in case of fire.

**Advice for fire-fighters**
Special protective equipment:
Wear self-contained breathing apparatus and chemical-protective clothing.

Further information:
In case of fire and/or explosion do not breathe fumes. Keep containers cool by spraying with water if exposed to fire. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**
Avoid inhalation. Use personal protective clothing. Avoid contact with the skin, eyes and clothing.

**Environmental precautions**
Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater.

**Methods and material for containment and cleaning up**
For small amounts: Contain with dust binding material and dispose of.
For large amounts: Sweep/shovel up.
Avoid raising dust. Dispose of absorbed material in accordance with regulations. Collect waste in suitable containers, which can be labeled and sealed. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations.

**Reference to other sections**
Information regarding exposure controls/personal protection and disposal considerations can be found in section 8 and 13.
7. Handling and Storage

**Precautions for safe handling**
No special measures necessary if stored and handled correctly. Ensure thorough ventilation of stores and work areas. When using do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift.

Protection against fire and explosion:
No special precautions necessary. The substance/product is non-combustible. Product is not explosive.

**Conditions for safe storage, including any incompatibilities**
Segregate from foods and animal feeds. Odour-sensitive: Segregate from products releasing odours. Further information on storage conditions: Keep only in the original container in a cool, well-ventilated place. Keep container dry. Keep away from heat. Protect from direct sunlight. Protect against moisture.

**Specific end use(s)**
For the relevant identified use(s) listed in Section 1 the advice mentioned in this section 7 is to be observed.

8. Exposure Controls/Personal Protection

**Control parameters**

**Components with occupational exposure limits**

| 57-50-1: Sucrose |
| 8001-30-7: Corn oil |
| 130498-22-5: Wheat flour |
| 8002-75-3: Oils, palm |

**Exposure controls**

**Personal protective equipment**
Respiratory protection: Respiratory protection not required.

Hand protection:
Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact
(Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN 374): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) etc.

Eye protection:
Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:
Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case of dust).

**General safety and hygiene measures**

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. Store work clothing separately. Keep away from food, drink and animal feeding stuffs.

**9. Physical and Chemical Properties**

**Information on basic physical and chemical properties**

Relative vapour density (air): not applicable
Solubility in water: insoluble
Partitioning coefficient n-octanol/water (log Kow): not applicable
Self ignition: Temperature: 318,0 °C (Method: Regulation 440/2008/EC, A.16)
Thermal decomposition: 180 °C, 270 kJ/kg (DSC (OECD 113))
                        280 °C, 30 kJ/kg (DSC (OECD 113))
                        (onset temperature)
Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.
Viscosity, dynamic: not applicable, the product is a solid
Explosion hazard: not explosive
Fire promoting properties: not fire-propagating (Regulation 440/2008/EC, A.17)

Other information

Self heating ability: It is not a substance capable of spontaneous heating according to UN transport regulations class 4.2.

10. Stability and Reactivity

Reactivity
No hazardous reactions if stored and handled as prescribed/indicated.

Chemical stability
The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions
No hazardous reactions if stored and handled as prescribed/indicated.

Conditions to avoid
See MSDS section 7 - Handling and storage.

Incompatible materials
Substances to avoid:
strong oxidizing agents, strong bases, strong acids

Hazardous decomposition products
Hazardous decomposition products:
11. Toxicological Information

Information on toxicological effects

Acute toxicity

Assessment of acute toxicity:
Virtually nontoxic after a single skin contact. Virtually nontoxic by inhalation. Virtually nontoxic after a single ingestion.

Experimental/calculated data:
| LD50 rat (oral): > 5.000 mg/kg (OECD Guideline 425)  
| No mortality was observed.  
| LC50 rat (by inhalation):  
| Not inhalable due to the physico-chemical properties of the product.  
| LD50 rat (dermal): > 5.000 mg/kg  
| No mortality was observed.

Irritation

Assessment of irritating effects:
Not irritating to the eyes. Not irritating to the skin.

Experimental/calculated data:
| Skin corrosion/irritation rabbit: non-irritant  
| Serious eye damage/irritation rabbit: non-irritant

Respiratory/Skin sensitization

Assessment of sensitization:
There is no evidence of a skin-sensitizing potential.

Experimental/calculated data:
| Buehler test guinea pig: Non-sensitizing.

Germ cell mutagenicity

Assessment of mutagenicity:
The product has not been tested. The statement has been derived from the properties of the individual components. Mutagenicity tests revealed no genotoxic potential.

Carcinogenicity

Assessment of carcinogenicity:
The product has not been tested. The statement has been derived from the properties of the individual components.

- **Information on: Corn oil**
  - **Assessment of carcinogenicity:**
    - A carcinogenic potential cannot be excluded after prolonged exposure to concentrations which can cause organic toxicity.
    - The substance showed tumor-promoting activity in rodents when given at high doses in the diet after pretreatment with a carcinogenic substance.

---

**Reproductive toxicity**

Assessment of reproduction toxicity:
The product has not been tested. The statement has been derived from the properties of the individual components. The results of animal studies gave no indication of a fertility impairing effect.

**Developmental toxicity**

Assessment of teratogenicity:
The product has not been tested. The statement has been derived from the properties of the individual components. Animal studies gave no indication of a developmental toxic effect at doses that were not toxic to the parental animals.

**Specific target organ toxicity (single exposure)**

Assessment of STOT single:
Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Remarks: The product has not been tested. The statement has been derived from the properties of the individual components.

**Repeated dose toxicity and Specific target organ toxicity (repeated exposure)**

Assessment of repeated dose toxicity:
The product has not been tested. The statement has been derived from the properties of the individual components.

- **Information on: colecalciferol; Vitamin D3**
  - **Assessment of repeated dose toxicity:**
    - Repeated oral exposure to small quantities may affect certain organs. The substance may cause damage to the kidney even after repeated ingestion of low doses, as shown in animal studies. The substance may cause damage to blood vessels even after repeated ingestion of low doses, as shown in animal studies.

- **Information on: Corn oil**
  - **Assessment of repeated dose toxicity:**
    - Repeated exposure to large quantities may affect certain organs.
No adverse effects were observed after repeated inhalative exposure in animal studies.

Aspiration hazard

No aspiration hazard expected.
The product has not been tested. The statement has been derived from the properties of the individual components.

Other relevant toxicity information

Misuse can be harmful to health.

12. Ecological Information

Toxicity

Assessment of aquatic toxicity:
There is a high probability that the product is not acutely harmful to aquatic organisms.
The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: colecalciferol; Vitamin D3
Toxicity to fish:
LC50 (96 h) > 10,000 mg/l, Leuciscus idus (DIN 38412 Part 15, static)
The product has low solubility in the test medium. An aqueous dispersion has been tested. Tested above maximum solubility. The details of the toxic effect relate to the nominal concentration.

Information on: colecalciferol; Vitamin D3
Aquatic invertebrates:
EC50 (48 h) > 100 mg/l, Daphnia magna (OECD Guideline 202, part 1, static)
The product has low solubility in the test medium. An eluate has been tested. The details of the toxic effect relate to the nominal concentration. No toxic effects occur within the range of solubility.

Information on: colecalciferol; Vitamin D3
Aquatic plants:
EC50 (96 h) > 0,17 mg/l (growth rate), Selenastrum capricornutum (OECD Guideline 201, static)
The product has low solubility in the test medium. An eluate has been tested. No toxic effects occur within the range of solubility. The statement of the toxic effect relates to the analytically determined concentration.

No observed effect concentration (96 h) 0,17 mg/l (growth rate), Pseudokirchneriella subcapitata (OECD Guideline 201, static)
The statement of the toxic effect relates to the analytically determined concentration. The product has low solubility in the test medium. An eluate has been tested. No toxic effects occur within the range of solubility.
Persistence and degradability

Assessment biodegradation and elimination (H2O):
The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: colecalciferol; Vitamin D3*
*Assessment biodegradation and elimination (H2O):*
*Not readily biodegradable (by OECD criteria). Poorly biodegradable.*

------------------

Bioaccumulative potential

Assessment bioaccumulation potential:
The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: colecalciferol; Vitamin D3*
*Bioaccumulation potential:*
*Bioconcentration factor: 30 - 48, Fish (calculated)*

------------------

Mobility in soil

Assessment transport between environmental compartments:
Adsorption in soil: The product has not been tested. The statement has been derived from the properties of the individual components.

*Information on: colecalciferol; Vitamin D3*
*Assessment transport between environmental compartments:*
*Volutility: The substance will not evaporate into the atmosphere from the water surface.*
*Adsorption in soil: Adsorption to solid soil phase is expected.*

------------------

Results of PBT and vPvB assessment

The product does not contain a substance fulfilling the PBT (persistent/bioaccumulative/toxic) criteria or the vPvB (very persistent/very bioaccumulative) criteria.

Other adverse effects

The product does not contain substances that are listed in the Montreal Protocol on substances that deplete the ozone layer.

Additional information

Other ecotoxicological advice:
Must not be discharged into the environment.
13. Disposal Considerations

Waste treatment methods

Must be disposed of or incinerated in accordance with local regulations.

Contaminated packaging:
Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product.

**15. Regulatory Information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

**16. Other Information**

Full text of classifications, hazard symbols and hazard statements, if mentioned in section 2 or 3:

- **Acute Tox.** Acute toxicity
- **STOT RE** Specific target organ toxicity — repeated exposure
- **Aquatic Chronic** Hazardous to the aquatic environment - chronic
- **H311** Toxic in contact with skin.
- **H330** Fatal if inhaled.
- **H300** Fatal if swallowed.
- **H372** Causes damage to organs through prolonged or repeated oral exposure.
- **H413** May cause long lasting harmful effects to aquatic life.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.

Vertical lines in the left hand margin indicate an amendment from the previous version.
